Sounds good.

Katie, should I do that?

I'd follow up and ask Cody whether she might have any legal concerns and offer to include someone representing the legal team to meet with her.

John met with Cody Reiter last week and got the impression that she was on board. Do you think we should continue pressing for a meeting with Gonzalez herself?

I just spoke with Mercedes in Juarez's office and she said she'll get back to me today about meeting. Ditto with Johnson's office.

Katie is trying to set up a meeting with DJ. Not much luck yet.

I met with Cody Reiter, and all his signals and his words were for a green light with LG.

Also - where are you getting in to meet w/ LG & DJ? These meetings are pretty high priority I think.

Unless Claire is in communication with the attorneys working overtime this weekend & she can work them in, I think it's best if we hold them. It's important to have the bill introduced on Monday, otherwise on Wednesday we are once again discussing an un-introduced bill & it would mean another 2 weeks (in July) before we can meet in committee w an introduced bill.

We have suggested some edits, nothing substantial, mainly just to position things better if there is a referendum and to provide contextual guidelines for when the council can actually dedicate the funding.

If this gets in the way of expeditiousness in moving the ordinance forward, my feeling is that expeditiousness is of higher priority. And we want to keep and build the city council consensus.

So please consider these, but let's not hold up the train.

Choo Choo!
